

EASIFRAME[®]

Instructions

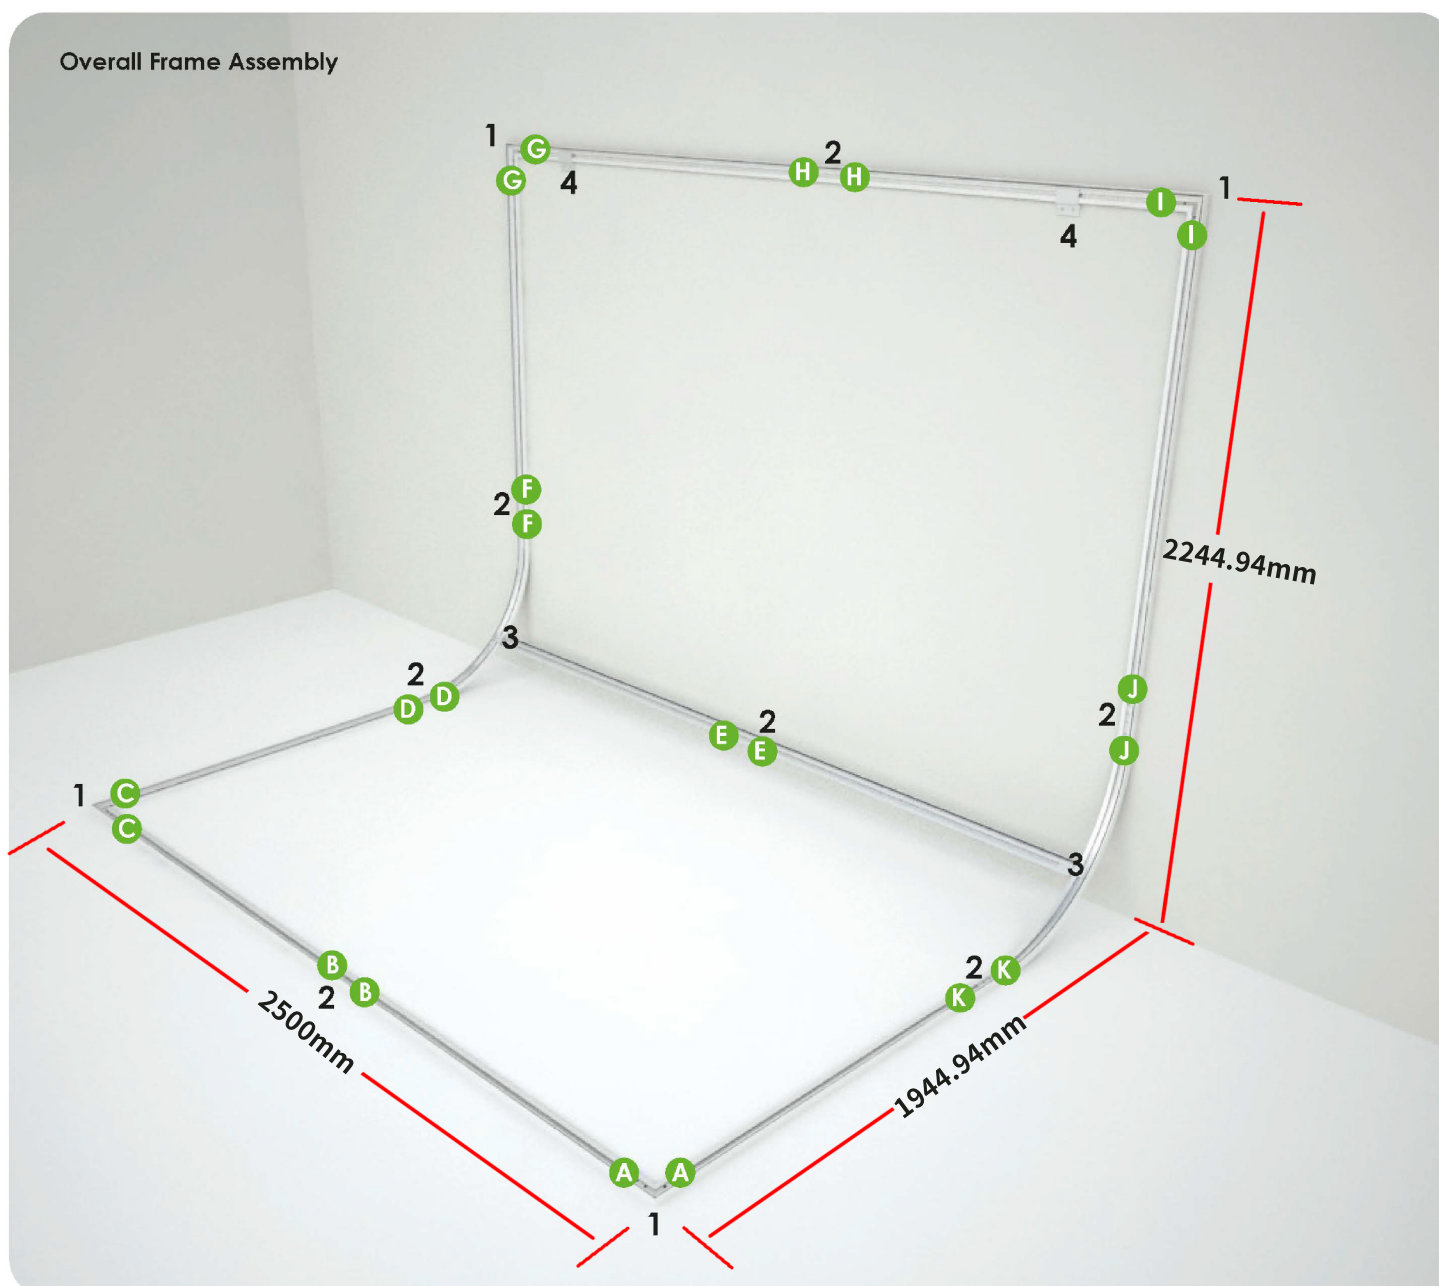

Frame Assembly

The EASIFRAME[®] is labelled on each join with green dots - please ensure that the same labels are connected ('A' + 'A' - 'B' + 'B' etc.) All joins require an Allen Key to tighten which is supplied.
Please Note: Green dot labels are stuck to the BACK of the frame, once in place, frame pieces will need to be TURN OVER to add the joins.

Overall Frame Assembly

EASIFRAME[®]

Instructions

Fabric Insert

To install the fabric skin correctly, start by inserting the Silicone Edge with fabric into the top two corners, middle and finish the remaining of the top section.

Repeat the same process for the bottom section and then the sides.

Please refer to the diagram below - Starting from '1'
